

Care & Cleaning Guide: Commercial Glitter® Vinyl Wallcovering

For Products

Glitter® Vinyl Murals

Before You Begin

Do not use abrasive cleaners containing chlorine bleach, solvents, or ammonia, as they may damage the surface and alter the integrity of the printed design.

Always follow specific cleaning instructions for each product as wallcovering substrates and vary.

WARNING: Never mix cleaning agents together, volatile reactions may occur!

To Properly Clean Everyday Stains

Everyday Dirt

Dirt and smudges from everyday occurrences may be removed from this product with precaution as directed:

Make a cleaning solution of **1:10 Dawn® Detergent and warm water**. Begin by wiping the soiled area from the bottom of the wallcovering and upward.

After the area has been sufficiently cleaned, rinse the area thoroughly with a cellulose sponge beginning from the top of the wallcovering and down.

Wallcovering with deeper textures may need additional cleaning to suds and dirt from lingering.

Be aware of allowing water to run down behind baseboards or any nearby door casings.

To effectively dry the thoroughly rinsed area, use a soft and lint free cloth or towel to absorb moisture and prevent any haziness that could be left behind.

Note: Printed **surfaces may be altered by vigorous wiping and applying too much pressure**. UV-LED inks are **not impervious to cleaning agents**. To remove every day dirt and dust, **only use non-abrasive wipes and cleaners**.

Difficult Stains

For more difficult stains that are only surface deep, stronger, yet non-abrasive, household cleaners may be used. Always test an inconspicuous area first to be sure that the surface and ink are not damaged before proceeding.

Always respond to dirt, smudges and stains and clean area **immediately** to avoid allowing dirt and or stains to settle into the surface of the wallcovering.

Always test an inconspicuous area first to be sure that the surface and ink are not damaged before proceeding.

Care & Cleaning Guide: Commercial Glitter® Vinyl Wallcovering

Special Conditions

Lacquer, Shellac

Remove **immediately** with dry cloth, careful not to spread stain. Clean quickly with rubbing alcohol then rinse with clean water.

Ballpoint Ink

Remove **immediately** using a cloth dampened in rubbing alcohol. Rinse with clean water.

Tar or Asphalt

Remove **immediately** using a cloth dampened with kerosene or cleaning naphtha. Rub gently from outside edge of stain to center to prevent stain from spreading. Rinse with clean water.

Chewing Gum or Grease

Scrape off as much as possible and go over lightly with cleaning naphtha to remove remainder. (Chewing gum will come off more easily if rubbed with an ice cube.) Work quickly in removing shoe polish as the polish contains dye which can cause permanent staining. Rinse with clean water.

Feces, Blood, Urine

Remove quickly using a strong soap solution.

Pencil or Crayon

Scrape off excess crayon and erase pencil marks. Clean remaining stains with rubbing alcohol.
