

Care & Cleaning Guide: High Performance Silver Vinyl Wallcoverings

For Products

Smooth Silver Vinyl Murals + WallMax®
Textured Silver Vinyl Murals + WallMax®

Before You Begin

Do not use abrasive cleaners such as 100% bleach or harsh cleaners containing solvents, or ammonia before reading these instructions as they may damage the surface and alter the integrity of the printed design.

Always follow instructions and test a small inconspicuous area before spraying an entire area with cleaner.

WARNING: Never mix cleaning agents together, volatile reactions may occur!

To Properly Clean Everyday Stains

Everyday Dirt

Make a **cleaning solution of 1:10 Dawn® Detergent and warm water**. Begin by wiping the soiled area from the bottom of the wallcovering and upwards.

After the area has been sufficiently cleaned, rinse the area thoroughly with a cellulose sponge beginning from the top of the wallcovering and down.

Wallcovering with deeper textures may need additional cleaning to prevent suds and dirt from lingering.

Be aware of allowing water to run down behind baseboards or any nearby door casings.

To effectively dry the thoroughly rinsed area, use a soft and lint free cloth or towel to absorb moisture and prevent any haziness that could be left behind.

Difficult Stains

For more difficult stains that are only surface deep, the use of stronger yet non-abrasive, household cleaners may be used. Follow steps above then thoroughly rinse and dry the area with a lint free cloth or towel before using a different method of cleaning.

Always test an inconspicuous area first to be sure that the surface and ink are not damaged before proceeding.

Recommended Cleaners

NOTE: Heavy, repeated use of stronger cleaners may cause damage to the integrity of the wallcovering substrate and printed design. Always be cautious when using a heavier cleaner.

1:10 Mild Soap and Water

Mineral Spirits

Formula 409

10% Bleach Solution

De-Solv-It

Fantastic

Do Not Use

Do not use steel wool or powdered abrasive cleaners as they may damage the image and textured surface.

Do not use solvents, alcohol, pine oil, or cleaners that contain these kinds of products as they can remove the image and damage the textured surface and cause marring.

Always respond to dirt, smudges and stains and clean area **immediately** to avoid allowing dirt and or stains to settle into the surface of the wallcovering.
